

GROUPE BSC INTERNATIONAL

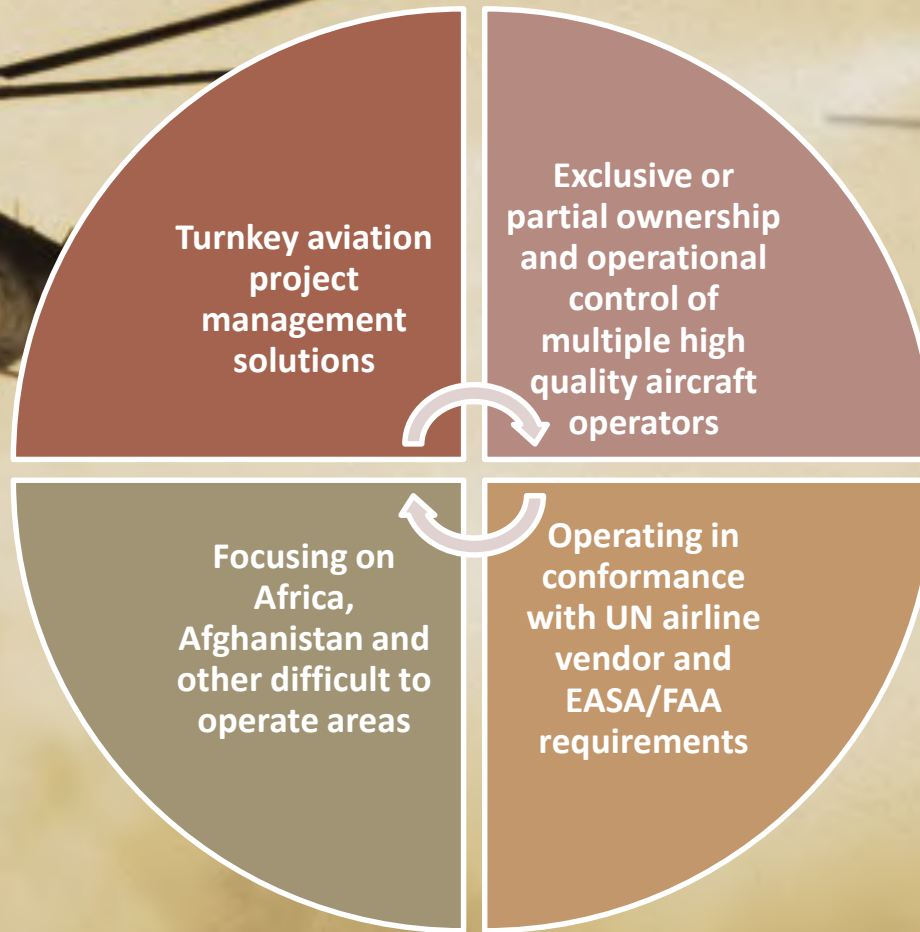

Ouagadougou

# Group BSC INTERNATIONAL

---

Confidential

# Value Proposition

A leading provider of air logistics and services in East Africa and neighboring countries, BSC INTERNATIONAL provides 3PL services to NGOs, Governments, and private corporations

With a specialized and strategically selected fleet of fixed wing and rotary aircraft, it is able to provide its customers fast, cost effective, and reliable cargo solutions for projects of any size

With offices in Somalia, Uganda, Zanzibar, Kenya, UAE, South Sudan, Burundi, USA, and the Central African Republic, Aero-Pioneer Group offers a unique blend of international expertise, regional presence, and local know-how

# People

We employ specialized aviation project managers with careers spanning industry sectors from NGOs to military to special government projects

We work with our clients to ensure that they have the aviation support they need when they need it and that their key performance indicators are always met

Our aircraft are operated by carefully selected flight crews which are mostly ex-military with extensive experience in special operations and thousands of hours of flight experience in hostile locations

# Maintenance, Repair, and Overhaul Capabilities

Repair Level	Maintenance Activity	Location
<b>Level 1</b>	<ul style="list-style-type: none"><li>• Avionics and electronics repairs</li><li>• Airframe and engine line maintenance</li><li>• LRU and lease engine removal and reinstallations</li><li>• Preservation of support equipment and tooling</li><li>• Configuration control of airframe records</li></ul>	On-site maintenance team
<b>Level 2</b>	<ul style="list-style-type: none"><li>• Integrated logistics management and AOG support</li><li>• LRU repairs</li><li>• Avionic laboratory testing and repairs</li><li>• Spare parts and consumables supply</li></ul>	Maintenance and supply vendors
<b>Level 3</b>	<ul style="list-style-type: none"><li>• OEM warranty repairs</li><li>• OEM Overhauls</li><li>• Training and simulator support</li></ul>	OEM maintenance facilities or Approved MRO Facilities

# Level 1 Repairs

- At major operations, we have invested in avionics and electronics repair capabilities to provide on-site troubleshooting and ensure mission readiness

# Part 145 Maintenance Operations

# Aviation Support

- Our aircraft are perfectly suited for humanitarian and peacekeeping missions, national security, oil and gas exploration, energy powerline installation, MEDEVAC and other critical and contingency missions such as night vision google or airdrop operations
- We provide worldwide flight planning and operations services including full ACMI support, flight clearances, fueling, ground handling, and catering arrangements
- Aircraft are typically registered in Ukraine or Georgia and operators meet industry best practice standards for aviation operations

# Eastern Aircraft Supporting African Operations

MI-8T/MI-17 is one of the most successful utility helicopters of all time. It is capable of operating in hot and high environments and can lift an average of 3 tons to any location.

**3 Mi-8's are currently mobilized in Africa.**

AN-12 is a specialized cargo aircraft with unmatched reliability, hot and high capabilities, and simplicity of maintenance. It has a rear ramp, spacious cargo cabin capable of carrying 20 Tons and the ability to takeoff and land from unpaved runways. **1 An-12 is currently mobilized in Africa.**

AN-26 is a medium range cargo aircraft with a rear cargo ramp for vehicles or bulk cargo. It can carry up to 40 passengers combined with cargo while operating from unpaved runways.

**4 An-26's are currently mobilized in Africa.**

AN-28 is a high-wing monoplane with a robust tricycle non-retractable landing gear, featuring a steerable nose wheel to provide for operation from short, unprepared runways, and hot or high conditions.

# Western Aircraft Supporting African Operations

The Beachcraft 1900D is a 19 passenger turboprop with a payload of 3.5 tons capable of operating in STOL environments and all weather conditions.

The Fokker-F50 is medium sized passenger and cargo aircraft capable with STOL capability of 7 tons or 58 passengers.

The Fokker-F27 is a cost efficient dual configuration passenger and cargo aircraft with STOL capability.

Fairchild Aerospace Metro is a 19-seat, pressurized, twin-turboprop aircraft offering a long range, low fuel burn, and pressurized cabin.

# Heavy Lift Capabilities

- We specialize in providing project management, logistical support, and chartering of AN-124 aircraft, uniquely capable for the movement of oversized cargo and palletized freight up to 120 tons

# Aircraft Operations Summary

- Combined pax/cargo operations
- Vehicle transportation
- Rear ramp loading
- Short take-off and landing (STOL)
- Nonstandard and Dangerous Goods
- Bulk fuel delivery
- Landing on unpaved runways
- Air Drops
- MEDEVAC/CASEVAC flights
- Night Vision Google Operations

# Logistics and Warehousing Support

- We are experienced in providing logistics and warehousing operations
- Through our partnership with OEM's, we have a large inventory of certified genuine aircraft parts
- With established warehouses, supplies, and equipment, we are able to provide an integrated, comprehensive and cost effective logistics solution that fully supports mission readiness

# Airlift Support in Somalia – African Union Mission in Somalia

We support AMISOM peacekeeping missions via the movement of personnel, equipment, and critical supplies

Provide transportation from Djibouti to multiple locations throughout Somalia

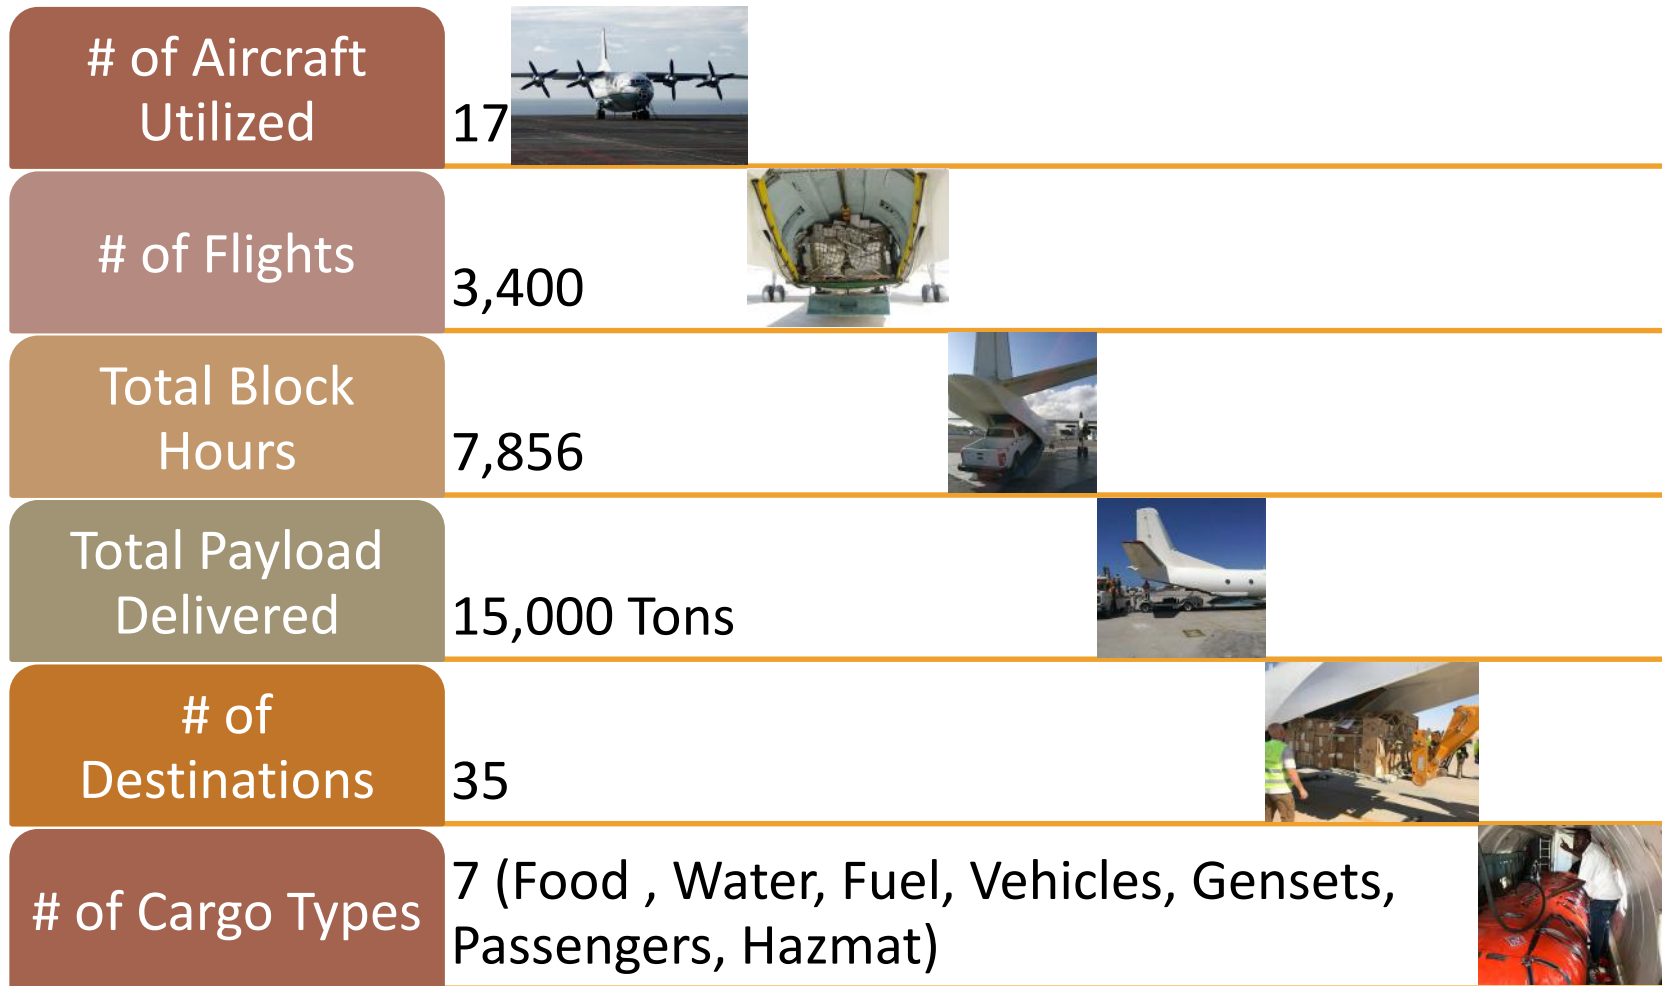

Operate a fleet of Antonov 26, Antonov 26-100 combi and An-12 aircraft

Capable of securing operating permits, parking, fuel storage, and life support in Mogadishu

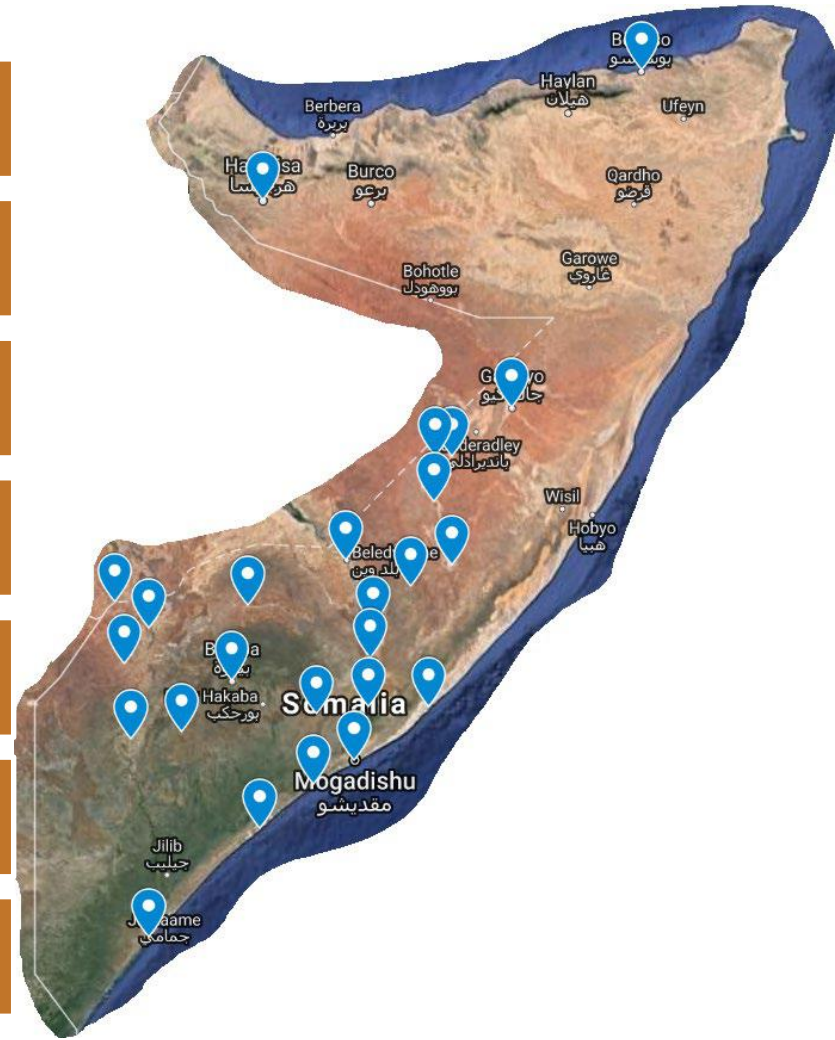

# Somalia Aviation Activity Since 2015
